

It's all about the *ride.*

# MASI

B I C Y C L E S

We'd like to give a special thanks to:  
Twin 6 Alternative Cycling Apparel ([www.twinsix.com](http://www.twinsix.com))  
Banjo Brothers bags ([www.banjobrothers.com](http://www.banjobrothers.com))  
Minnehaha Classic Canvas Bag Co ([www.minnehahabags.com](http://www.minnehahabags.com))  
Lazer Helmets ([www.lazer.be](http://www.lazer.be))  
for providing product to help make this catalog a success.

Masi Bicycles have been a part of cycling legend for nearly 70 years now and over the years we've learned a lot about how to make bicycles that become a part of the rider and an extension of their passion for cycling. Many great riders have ridden Masi to victory in races like the Tour de France, the Giro d'Italia and countless local criteriums. We don't believe that success comes only from race wins but also from creating bicycles that enhance the rider's overall enjoyment of cycling.

We believe that a bicycle should improve the rider's experience and enable them to achieve their cycling goals- whether simply getting across town, beating their riding partners on their favorite ride or stepping onto the top step of a race podium.

Our motto is "it's all about the ride" because we strongly believe in those words. Each bike we create is designed with the ride, and rider, in mind.

---

All Masi bicycles are crafted with the finest materials to extremely high standards and that is something we are very proud of. We produce our frames in steel, aluminum, aluminum with carbon and full carbon. Each material is carefully selected for the purpose of the bike and the type of rider likely to ride the bike. We've never chosen a material to conform to fad, but make our material choices based on the best use for it.

[www.masibikes.com](http://www.masibikes.com)

#### HMC- High Modulus Carbon fiber

We use Mitsubishi TR50 and MR60 high modulus carbon fiber on all of our carbon frames. Super light and super stiff, but also highly durable for years of great riding- not just one season.

#### 7005 T6 SLX Aluminum

Our lightest and stiffest aluminum tubeset with very aggressive butting and tube shapes that enhance the characteristics of the alloy.

#### 7005 T6 SL Aluminum

7005 T6 SL Aluminum Light and stiff with increased durability through thicker butting. Produces a very comfortable ride thanks to the tube shaping. Perfect for excellent power transfer through the increased stiffness.

#### Reynolds 631 Double Butted Steel

Reynolds has been synonymous with quality steel tubing for decades. 631 tubing is light, stiff and air hardened for incredible weld strength.

#### Double Butted Chromoly Steel

Double butted 4130 chromoly steel provides the warmest, most comfortable ride possible. Not other material matches steel's value to performance ratio.

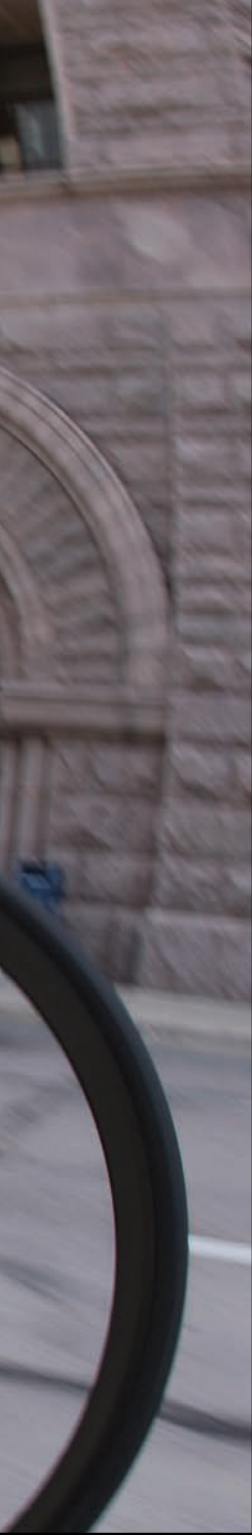

#### Steel Series

The heart and soul of Masi was formed in steel and is still a huge part of who we are. It isn't just a convenient fad to exploit because we've always believed in steel and we always will. No other material delivers as much performance per dollar as steel, so it's no wonder that steel has remained popular all these years.

Our Steel Series of bikes are all produced to capitalize on the qualities of the tubing used and are crafted to last a lifetime. They're beautiful to look at and a joy to ride - you'll agree as soon as you see one and throw a leg over the top tube.

Color: Maroon

#### Speciale Fixed Ultimate

You have entered Shangri La! There is no finer example of classic beauty in bicycle craftsmanship than steel tubes brazed together with lugs and there is no bike more refined and simplified than a single speed. The Ultimate is truly the ultimate fixed gear bike for those who desire the best- in both quality and looks. To make things even better, the Ultimate has a sublime ride that you just won't find anywhere else.

**Fully lugged Masi double butted 4130 chromoly steel w/ Masi track dropouts and Masi lugged chromoly steel fork**

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value. Nothing defines grace and elegance on a bicycle quite like lugs... nothing. (Also available as a frame-set in Maroon and Nekkid.)

**Miche Primato Pista Advanced crankset with 46T chainring and Miche bottom bracket**

Miche remains one of the best names in high quality components thanks to their reputation for stellar quality and looks.

**MKS Sylvan pedals w/ MKS steel toeclips and leather accents**

The ultimate in functional cool! MKS pedals and matching toe clips work perfectly and look beautiful at the same time.

**Weinmann DP 18 rims and Miche high flange track hubs**

Miche's gorgeous hubs laced to Weinmann rims create a stout wheelset that will turn heads as the miles go by.

Color: Nekkid

Color: Nekkid

We created the Speciale Fixed LTD as a benchmark for others to follow and it remains the bike that others aspire to be... only better. Now, with the addition of a flat bar version, the LTD is even more of a leader. We've continued the Nekkid finish that has spurred so much imitation, but the LTD continues to turn heads. The flat or drop bar options give you the ability to express yourself like never before- say it loud, say it proud!

**Masi double butted 4130 chromoly steel w/ Masi track dropouts and Masi lugged chromoly steel fork**

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value.

**Sugino Messenger crankset w/ polished arms and 44T Messenger chainring**  
The Sugino Messenger crankset and chainring are one of the most popular combinations around for fixed gear riding- beautiful, stiff and reliable!

**MKS Sylvan pedals w/ MKS steel toeclips and leather accents**

The ultimate in functional cool! MKS pedals and matching toe clips work perfectly and look beautiful at the same time.

**Weinmann DP 18 rims and high flange track hubs**

Deep, aero-section rims provide style points and when laced up to high flange track hubs they create a stiff and reliable wheel.

**Deda Velocita steel sprint handlebar or custom Masi straight flat bar**

The Deda sprint bars are the bars of choice for track bar enthusiasts and the Masi custom flat bar is the definition of urban chic.

Color: Orange

Color: Metallic Red  
Also available in Disco Black

Here's the perfect bike for no-handed skids, weekend bike polo tournaments, ripping through the city streets, or perfecting your pedal stroke over the winter. The Speciale Fixed does it all and does it with style and a smile. Now more than ever, the Fixed is about options and not limitations thanks to the addition of a riser handlebar option. Come learn about the endless possibilities of one gear; you won't regret it.

Color: Disco Black

**Masi double butted 4130 chromoly steel w/ Masi track dropouts and Masi lugged chromoly steel fork**

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value. The true track dropouts make wheel and gear changes a breeze.

**Lasco crankset w/ 46T chainring.**

A super stiff crankset to handle urban fixed gear riding and an all-around gear for riding through the mean streets.

**16T fixed cog & 16T freewheel**

Out of the box versatility so you can ride fixed or free depending on your style or your mood.

**Tektro brake levers & calipers**

Maybe you want brakes and maybe you don't, but we provide them so you can make the choice for yourself.

**Weinmann DP 18 rims and high flange track hubs**

Deep, aero-section rims provide style points and when laced up to high flange track hubs they create a stiff and reliable wheel.

**Drop handlebar or riser handlebar**

Take your pick between drop or riser handlebars to suit your hand position of choice.

Color: Burgundy

It's difficult to find a bike with a more refined personality than the Randonneur. If you've been looking for a longtime companion to accompany you on those epic rides across town, across the state or even around the globe then your search is over. Designed for the long haul, the Randonneur is steady and comfortable and ready to experience the world with you.

**Masi double butted chromoly steel w/ horizontal dropouts and Masi lugged chromoly steel fork**

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value.

**Rack & fender mounts**

If you like to take it all with you, you'll appreciate the rack and fender mounts that accommodate installation of both. Excellent for transporting the accessories of life.

**Truvativ Elita C2.2 crankset w/ compact chainrings and integrated bottom bracket**

The compact gearing is perfect for all those long miles going up and down the rolling roads of life. With the external, integrated bottom bracket you get increased stiffness for improved shifting and power.

**MKS Sylvan pedals w/ MKS steel toeclips and leather accents**

The ultimate in functional cool! MKS pedals and matching toe clips work perfectly and look beautiful at the same time.

**Dia-Compe BRS-101 brakes & bar end shifters**

Another classic component name from years past, Dia-Compe still makes some incredibly good products. The long reach calipers are perfect for accommodating the use of fenders and the bar end shifters are the perfect touch for a classic touring bike.

Color: Metallic Blue

Color: New Pearl White

The Commuter is a single speed do-everything bike with the potential to become so much more. The long wheelbase makes it ideally suited for all day adventures or rough roads and the rack and fender mounts make it a great load carrier. With its derailleurs mounts, it can even become a fully geared what-ever-you-want machine. Enjoy life on your own terms and without restrictions.

**Masi double butted chromoly steel w/ horizontal dropouts and Masi lugged chromoly steel fork**

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value. Horizontal dropouts allow for easy gear changes and the derailleur hanger allows the option of a rear derailleur.

**Rack & fender mounts**

If you like to take it all with you, you'll appreciate the rack and fender mounts that accommodate installation of both. Excellent for transporting the accessories of life.

**Suntour crankset w/ 42T chainring and integrated chainguard**

A nice high-quality crankset with a commuter friendly chainring and guard. The 42T chainring is a perfect ring for all-around riding and carrying the loads of life.

**Sealed bearing hubs w/ track axle nuts, flip-flop rear & 16T freewheel**

Large flange hubs with real track nuts to prevent slipping and help preserve the dropouts. The rear hub is designed to work with either a freewheel or a fixed cog. Life is about options, not limitations!

**Ritchey Girder rims**

The Ritchey name is synonymous with quality and the Girder rims will provide years of worry-free riding.

Color: Ruby Red

The CX is a great bike for getting out in the dirt on the weekend and then carrying all the goodies you need on the way to the office on Monday. Built with rack and fender mounts, it's ready to serve double duty as a light duty touring bike or heavy duty commuting bike. The geometry of the frame and the parts mix also makes it an excellent entry level cross racing bike. Why buy multiple bikes when one will do the job?

Also available in Root Beer

Color: Root beer

#### Masi double butted chromoly steel w/ horizontal dropouts and Masi lugged chromoly steel fork

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value.

#### Rack & fender mounts

If you like to take it all with you, you'll appreciate the rack and fender mounts that accommodate installation of both. Excellent for transporting the accessories of life.

#### TruVativ Touro crankset w/ compact chainrings

Compact cranksets provide all the climbing gears you need without robbing you of sprint gears. The improved chainline and lighter weight are improvements over triple cranksets as well.

#### Shimano Tiagra w/ 105 rear derailleur

Shimano's Tiagra 9spd shifters mate perfectly to the 105 rear derailleur to create a reliable drivetrain suited to cross racing, commuting or anything else you want to do.

#### Tektro Oryx cantilever brake calipers

Cantilever brakes provide awesome stopping power and the wider calipers create tons of mud clearance when you're in the icky stuff.

Color: Gloss Black

Not your cookie-cutter race bike, the Speciale is the harmonious marriage of old and new. The steel frame and fork are the retro soul of the machine and the modern parts mix keeps things current. Getting out on the road for hours on end never felt quite this good before.

**Masi double butted 4130 chromoly steel and Masi lugged chromoly steel fork**  
Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value.

**Shimano 105 shifters and front and rear derailleurs**

The 105 shifting system is the performance leader in entry level race parts.

**Truvativ Elita C2.0 crankset w/ compact chainrings and integrated bottom bracket**

The compact gearing is perfect for all those long miles going up and down the rolling roads of life. With the external, integrated bottom bracket you get increased stiffness for improved shifting and power.

**Ritchey Pro Zeta wheelset**

The new and improved Zeta wheelset carries over all the reliability Ritchey is famous for. With aero spokes, aero rims and incredibly smooth hubs, the Zeta wheelset will get you there faster and without worry.

**Ritchey Pro Logic stem and handlebar**

Ritchey components are universally seen as among the best around and have a reputation for excellent durability. The bar and stem are light, but not wimpy so you don't waste energy through flex.

#### SoulVille Series

SoulVille is a frame of mind as much as it is a place or even a product. SoulVille represents that place in our lives where things are a little slower; a lot mellower and certainly a lot simpler. From the graceful curves of the steel frame to the simplified componentry, the SoulVille series is designed around creating that cushion of comfort and calm that we all wish we could have all day, every day.

Color: New Pearl White

If seven speeds aren't enough for you, then the SoulVille 10 is the bike you need. The SRAM Double-Tap flat bar shifters and Rival derailleurs serve up the perfect gearing options for nearly any type of riding you want to do. Combined with the amazing good looks of the SoulVille frame and fork, it's a very capable- and ultimately stylish- city bike or commuter. Load it up with racks and panniers for carrying everything you need or just zip through town turning heads everywhere you go.

**Masi double butted 4130 chromoly steel and Masi lugged chromoly steel fork**  
Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value.

#### **Rack & fender mounts**

These mounts make it easy to attach the tools to carry the loads of life.

#### **SRAM Double-Tap 10spd shifters**

The Double-Tap shifters are supremely easy to use and the wide range of gears makes riding easier on all terrain.

#### **Avid Single Digit 5 brakes**

Avid brakes are powerful, reliable and provide worry-free braking for years.

#### **Masi alloy arc handlebar**

A simple bar with a comfortable position for your hands.

Color: Metallic Blue

Color: Gloss Black

The origin of the SoulVille family, the SoulVille 7 is the pinnacle of refinement and sophistication. With a timelessly simple design, the SoulVille 7 is perfect for all those rides from café to market and back home. The internal gears and overall lack of complexity makes the SoulVille 7 the perfect sea of calm in an otherwise chaotic world.

Color: Gloss Black

Color: Cielo Blue

**Masi double butted 4130 chromoly steel and Masi lugged chromoly steel fork**  
Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value. (Also available in a very stylish and elegant mixte step-through frame in 16" and 18" sizes.)

**Rack & fender mounts**

These mounts make it easy to attach the tools to carry the loads of life.

**Shimano Nexus 7spd internal hub w/ roller brake & Nexus twist shifter**  
7 internal speeds, a twist shifter and a roller brake for increased braking power.

**Suntour crankset w/ 42T chainring and integrated chainguard**

A stiff crankset with gearing for cruising around and a chainguard ring to keep your clothes grease free.

**Masi alloy Arc handlebar**

A simple bar with a comfortable position for your hands.

Color: Ano White

Color: New Pearl White

Graceful elegance with the 3 speed internal drivetrain that provides just enough gearing for getting around town with a load of groceries or up and over the hills between you and your final destination. The beautifully curved steel tubing provides a ride that is equal parts comfort and panache.

**Masi double butted chromoly steel w/ horizontal dropouts and Masi lugged chromoly steel fork**

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value. (Also available in a very stylish and elegant mixte step-through frame in 16" and 18" sizes.)

**3spd internal hub with twist shifter**

Internal gears keep things simple, reliable and hassle free and the twist shifter keeps your hands comfortably on the bar for control and comfort.

**Suntour crankset w/ 42T chainring and integrated chainguard**

A stiff crankset with gearing for cruising around and a chainguard ring to keep your clothes grease free.

**Rack & fender mounts**

These mounts make it easy to attach the tools to carry the loads of life.

**Masi alloy arc handlebar**

A simple bar with a comfortable position for your hands.

Color: Acid Green

Color: Metallic Red

Whether you choose to ride the SoulVille SS as a fixed gear or a single speed with the freewheel, it will never let you down if the goal is to have fun and look good doing it. Possibly a little less refined than the other members of the SoulVille family, the SS is the bare bones thrill junky of the group and is as hungry for fun as you are.

**Masi double butted 4130 chromoly steel and Masi lugged chromoly steel fork**  
Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value.

**Rack & fender mounts**

These mounts make it easy to attach the tools to carry the loads of life.

**Sealed bearing hubs w/ track axle nuts, flip-flop rear & 16T fixed cog & 16T freewheel**

Sealed bearings for reliability, track nuts to hold the wheels firmly in place and a flip-flop rear for fixed or free options.

**Suntour crankset w/ 42T chainring and integrated chainguard**

A stiff crankset with gearing for cruising around and a chainguard ring to keep your clothes grease free.

**Masi alloy arc handlebar**

A simple bar with a comfortable position for your hands.

#### Metrolitalia Series

Our Metrolitalia series is designed to be the ultimate city commuter, fitness bike or high speed errand bike. The geometry is very agile and quick, based off our road geometry, for a very nimble feel. Built with a taller head tube and shorter top tube, the position is more upright and back friendly for those riders who aren't looking for a race bike, but who still prefer a fast ride. With rack and fender mounts and thoughtful touches like seatposts with integrated tail lights and tires with reflective sidewalls, these bikes are ideally suited to a life in the city or surrounded by cars.

Color: Battle Grey

If the Solo is a single shot, then the Caffé Racer Doppio is the eye-opening, get-you-running double shot of fun, style and performance to make your day more than just tolerable, but enjoyable. The Doppio is the high-speed casual bike that enjoys dropping the Lycra crowd in its wake as it passes by on the way to your favorite coffee spot. The upgraded 10 speed drivetrain and carbon fork add a little more comfort and speed as well.

**Masi 7005 T6 double butted tubing w/ extended head tube & rack/fender mounts**

The light and stiff aluminum frame has an extended head tube for a more upright and comfortable ride and the mounts make it easy to carry your load.

**Masi Elite carbon integrated fork w/ alloy steerer, canti bosses & fender mounts**

Lightweight carbon eats up the bumps of the mean city streets and the alloy steerer tube further keeps the weight down.

**Shimano SL770 10spd flat bar shifters w/ Ultegra rear derailleur**

The lightweight and extremely reliable shifting system from Shimano ensures that you'll make your shift every time.

**TruVativ Elita C 2.2 compact crankset w/ Giga X-Pipe integrated BB**

Compact gearing provides lower gears for steep climbs without losing sprinting gears. The integrated, oversized bottom bracket increases stiffness while reducing weight.

**Masi alloy seatpost w/ integrated tail light**

The simple tail light provides increased visibility and keeps you from forgetting to toss a blinky in your bag.

**Kenda Kwik Trax 700x28 tire w/ reflective sidewall & Iron Cap puncture protection**

Puncture resistance and increased visibility for every day commuting.

Color: SG Crème

A solo shot of espresso is often all it takes to pop the eyes open and get the heart pumping. Just like that single shot of espresso, the Caffè Racer Solo is the perfect wake up. The aluminum frame and fork are stiff and responsive for sprinting to the office, the market, or just across town. Add some racks and fenders and you've got yourself an excellent two-wheeled SUV (but with much better gas mileage).

**Masi 7005 T6 double butted tubing w/ extended head tube & rack/fender mounts**

The light and stiff aluminum frame has an extended head tube for a more upright and comfortable ride and the mounts make it easy to carry your load.

**Masi Comp aluminum integrated fork w/ chromoly steerer, canti bosses & fender mounts**

A rugged aluminum fork with fender mounts to keep you clean when things get ugly.

**Shimano SL440 9spd flat bar shifters w/ 105 rear derailleur**

Shimano's 9spd shifting provides reliable performance and countless miles of hassle-free riding.

**TruVativ Touro crankset w/ compact chainrings**

Compact cranksets provide all the climbing gears you need without robbing you of sprint gears. The improved chainline and lighter weight are improvements over triple cranksets as well.

**Masi alloy seatpost w/ integrated tail light**

The simple tail light provides increased visibility and keeps you from forgetting to toss a blinky in your bag.

**Kenda Kwik Trax 700x28 tire w/ reflective sidewall & Iron Cap puncture protection**

Puncture resistance and increased visibility for every day commuting.

#### Performance Series

The Performance series of bikes are designed for entry level to intermediate level riders who are looking for something that is not just a great value, but a bike that also rides extremely well. Each model in the series is designed to help the rider get the most from their cycling experience. Whether riding for fitness or riding for sport, this series has something for every rider and every budget. Built with slightly longer wheelbases and shorter top tubes, the position is a bit more relaxed and upright for newer riders or riders looking for a less aggressive riding position. These bikes are the perfect starting point for a long life of cycling enjoyment.

Color: Chromium

The Shimano 105 10 speed drivetrain turns this bike into a very race-worthy bike that is happy pounding out the miles in the peloton, riding blissfully alone or hammering with friends on a group ride. Over the years, the Gran Corsa has developed a reputation for being an exceptional value; this newest version carries on that tradition exceptionally well.

**Masi 7005 T6 custom formed & butted tubing w/ VDS carbon seat stays**  
Made from lightweight aluminum with custom butting and shaping and mated to carbon stays to eat up the road vibrations.

**Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**  
Lightweight carbon legs bonded to an aluminum steerer tube for comfort and reliability.

**Shimano 105 shifters and front and rear derailleurs**  
The 105 shifting system is the performance leader in entry level race parts.

**Truvativ Elita C2.2 crankset w/ compact chainrings and integrated bottom bracket**

The compact gearing is perfect for all those long miles going up and down the rolling roads of life. With the external, integrated bottom bracket you get increased stiffness for improved shifting and power.

**Ritchey alloy handlebar & Masi ATS adjustable height system stem**

The Ritchey bar combined with the convenient adjustability of the Masi ATS stem provides a user friendly cockpit for riders of all levels.

Color: Matte Black

Updated with carbon seat stays and a very value oriented parts mix, the new Vincere is the budget friendly enthusiast bike that marries value and performance exceptionally well. The geometry blurs the line between beginner and advanced and is exceptionally stable and predictable, creating an excellent bike for those looking to get a little closer to the sharp end of the action.

**Masi 7005 T6 custom formed & butted tubing w/ VDS carbon seat stays**  
Made from lightweight aluminum with custom butting and shaping, mated to carbon stays to eat up the road vibrations.

**Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**  
Lightweight carbon legs bonded to an aluminum steerer tube for comfort and reliability.

**Shimano Tiagra w/ 105 rear derailleur**  
Tiagra 9spd shifters and a 105 rear derailleur for an excellent blend of performance and value.

**TruVativ Touro 2.0 compact crankset**  
Compact cranksets provide lighter weight and better shifting performance than triple cranksets, without losing any of the climbing capability. The improved chainline also extends chainring and chain life.

**Masi 31.8mm alloy handlebar & stem**  
Oversized alloy bar and stem for light weight and stiffness.

Color: Rosso Red

For riders looking to step up from “entry level” to something a bit more advanced, the Alare is the perfect fit. While not a “race bike”, the 9 speed shifting and compact crankset help create a sporty feel, while still employing a very predictable riding frame for stable comfort all day long.

Also available in New Pearl White

**Masi 7005 T6 double butted tubing w/ extended head tube**

The lightweight aluminum frame with extended head tube and shorter top tube creates a comfortable, upright ride.

**Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**

Lightweight carbon legs bonded to an aluminum steerer tube for comfort and reliability.

**Shimano Sora 9spd w/ Tiagra rear derailleur**

The Sora shifters are solid performers and paired with the Tiagra rear derailleur will provide countless miles of reliable shifting.

**TruVativ Touro 2.0 compact crankset**

Compact cranksets provide lighter weight and better shifting performance than triple cranksets, without losing any of the climbing capability. The improved chainline also extends chainring and chain life.

**Inline bar top brake levers & Shimano Sora brake calipers**

The inline brake levers provide safe braking from the bar tops when riding upright. Shimano Sora brake calipers provide excellent stopping power in all conditions.

## Partenza

Color: Vintage Blue

Why is it that “inexpensive” is so often equated with “cheap”? The Partenza sheds that stigma by providing an exceptional value for the price. Crammed with features usually found on more expensive bikes, the Partenza is an outstanding starting point for new road riders or those who just need a reliable road bike without a heavy toll on their wallets. The double butted and shaped aluminum tubing and carbon fork are the perfect platform for launching a long relationship with the road.

Also available in Black

### **Masi 7005 T6 double butted tubing w/ extended head tube**

The lightweight aluminum frame with extended head tube and shorter top tube creates a comfortable, upright ride.

### **Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**

Lightweight carbon legs bonded to an aluminum steerer tube for comfort and reliability.

### **Shimano 2300 8spd w/ Sora rear derailleur**

The 2300 shifters provide reliable shifting for years.

### **TruVativ Iso Flow crankset w/ Truvativ bottom bracket**

A sturdy and reliable crankset and bottom bracket to pound out the miles with.

#### Bellissima Series

The all-new Bellissima series of bikes is designed for women or smaller riders who don't want to sacrifice ride quality to get a bike that fits them better. With narrower handlebars, short reach shifters/ brake levers and zero offset seatposts, the Bellissima models have a more compact fit overall. Since the geometry of the bikes isn't compromised, the ride is all Masi. These bikes aren't just pretty paintjobs either; they're designed to ride and perform the same as any other Masi. Combine the Bellissima bikes with the new 48cm 3VC 105 and the step-through mixte designs used on select SoulVille models and you can see that we've been spending some time working on delivering a nice offering of bikes for women and smaller riders- we're fairly certain you'll like what we've been up to.

Color: Cielo Blue

With its overall smaller cockpit, the Gran Corsa Bellissima is the answer for women and smaller riders looking for an entry-level race bike. With the carbon stays and Shimano 105 10 speed group, it's the definition of dynamite in a small package.

**Masi 7005 T6 custom formed & butted tubing w/ VDS carbon seat stays**  
Made from lightweight aluminum with custom butting and shaping and mated to carbon stays to eat up the road vibrations. (47, 49, 51 cm)

**Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**  
Lightweight carbon legs bonded to an aluminum steerer tube for comfort and reliability.

**Shimano 105 shifters and front and rear derailleurs**  
The Shimano 105 parts offer top notch performance and the short reach shifters are perfect for smaller hands.

**Truvativ Elita C2.2 crankset w/ compact chainrings and integrated bottom bracket**

The compact gearing is perfect for all those long miles going up and down the rolling roads of life. With the external, integrated bottom bracket you get increased stiffness for improved shifting and power.

**Ritchey 38cm width handlebar and Masi zero offset seatpost**  
Narrow Ritchey handlebars and a zero offset post for smaller riders looking for a shorter and smaller overall cockpit.

Color: Rosa Pink

Color: New Pearl White

Just like the standard Alare, this model is a fantastic bike for entry level riders seeking a great performance bike. With the shorter top tube, taller head tube, narrow bars, zero offset seatpost and short reach brake/ shift levers it is ideally suited to smaller riders looking for a more compact fit without sacrificing handling.

**Masi 7005 T6 Double Butted tubing w/ extended head tube**

The lightweight aluminum frame and extended head tube create a comfortable, upright ride. (47, 49, 51 cm)

**Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**

Lightweight carbon legs bonded to an aluminum steerer tube for comfort and reliability.

**Shimano Sora 9spd shifters w/ short reach and Tiagra rear derailleur**

The Sora shifters are Tiagra rear derailleur are excellent performers and the short reach of the levers is perfect for smaller hands.

**TruVativ Touro 2.0 compact crankset**

Compact cranksets provide lighter weight and better shifting performance than triple cranksets, without losing any of the climbing capability. The improved chainline also extends chainring and chain life.

**Inline bar top brake levers & Shimano Sora brake calipers**

The inline brake levers provide safe braking from the bar tops when riding upright. Shimano Sora brake calipers provide excellent stopping power in all conditions.

**38cm width handlebar and zero offset seatpost**

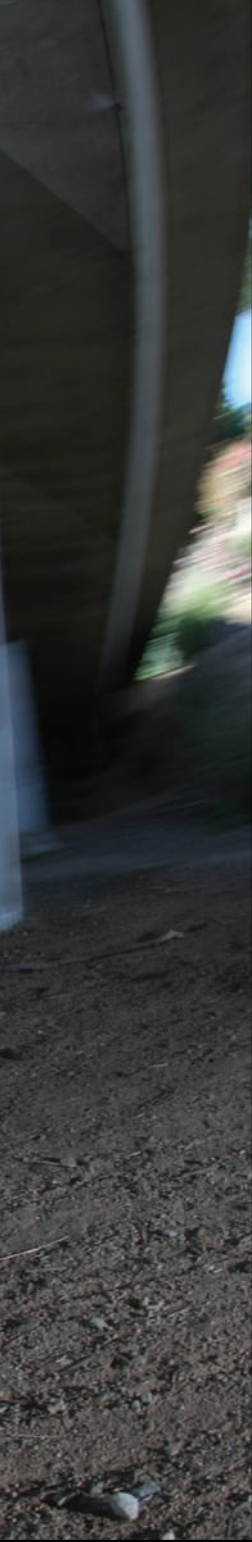

Narrower handlebars for narrower shoulders and zero offset seatpost for shorter overall cockpit reach.

#### Competition Series

The Masi Competition series of bikes is designed just as the name would imply with race-inspired geometry and handling for riders with a yearning for high performance. Each model in the series is created with the singular purpose of helping the rider get the most from themselves and their equipment with each pedal stroke. This series is perfect for the enthusiast rider looking for a bike that will work with them to go faster and farther.

Color: Stoller Red

What can you say about the Gran Criterium that has not already been said for the past 40 years? The paint and graphics are painstakingly reproduced from the famous 1978 model, but with a modern twist with the super light aluminum and carbon frameset and SRAM Rival components. Not just a retro classic, the Gran Criterium is completely race ready and built to fly. So go dust off your copy of *Breaking Away* and relive a special time.

**Masi SLX custom formed/ butted 7005 T6 tubing w/VDS (Vibration Damp- ing System) carbon seatstay & chainstay**  
Super light aluminum tubing blended with ultra light carbon stays for an amaz- ingly good ride.

**Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**  
Lightweight aluminum legs bonded to an aluminum steerer tube for comfort and reliability.

**SRAM Rival 10spd**  
Reliable and race ready components that won't let you down when it matters.

**Ritchey Pro Zeta wheelset**  
The new and improved Zeta wheelset carries over all the reliability Ritchey is famous for. With aero spokes, aero rims and incredibly smooth hubs the Zeta wheelset will you get you there faster and without worry.

**Ritchey Pro handlebar & Pro 4-Axis stem**  
The best handlebars and stems on the market and trusted by professional rid- ers around the world.

Color: SG Ano White

If going fast through the dirt, mud, muck and barriers is your idea of a good time, then the CXR is ready to join you. A high bottom bracket for obstacle clearance, race-tuned geometry and super light aluminum tubing make for a very race-worthy machine. The parts are all competition ready, but will leave you with enough money to get a nice pasta dinner the night before the race. After the race, feel free to go seeking out those lonely dirt or gravel roads that have always piqued your interest; a little adventure is surely a good thing.

**Masi 7005 T6 SLX double butted cyclocross frame**

We use our lightest aluminum tube set to create an excellent climbing and sprinting 'cross machine. (Also available as a frameset.)

**Masi Elite/RS Cross carbon integrated fork w/ 7075 alloy steerer & canti bosses**

The lightweight carbon legs and aluminum steerer provide precise steering and eat up all the bumps of the trail.

**Shimano 105 shifters and front and rear derailleurs**

The 105 shifting system is the performance leader in entry level race parts.

**Ritchey Pro handlebar & Pro 4-Axis stem**

The best handlebars and stems on the market and trusted by professional riders around the world.

**Kore Race+ cantilever brakes w/ cartridge pads and Kore Gradient II wheels**

Kore's Race+ brakes have become a very popular choice among cross addicts and the custom Gradient II wheels are stiff, light and dependable.

#### Carbon Series

We utilize a blend of monocoque and lugged construction processes to create one of the finest riding carbon frames anywhere in the world. Just throw a leg over one of these bikes and see for yourself why the Kenda Pro Cycling team has ridden these frames to victories all over the US and the world. Our carbon frames are all constructed the same way, so even the least expensive bike in the series gets the same frame as the most expensive bike. The 3VC is a thoroughbred from head to toe and will happily carry any rider to new heights, from enthusiast to seasoned pro.

Being light should not be the only reason to consider a carbon bike, though the 3VC is plenty light. If a light bike doesn't ride well or last for more than one season, then it's hardly a wise choice. The 3VC is designed with weight as a consideration, but not the determining factor. We place a far greater emphasis on the ride quality and we're supremely confident you'll agree it is the right idea.

Color: Rosso Red

As the name implies, the Team Issue is the best of the best. There are certainly professional riders riding on lesser bikes. Whether you're looking to win a race or simply demand the best, the Team Issue is ready to meet that need and leaves you asking for nothing more.

#### Masi High Modulus full carbon-lugged frame

The lightest Masi frame ever made with a monocoque front triangle bonded to a lugged rear end. (Also available as a frameset.)

#### Masi FC/Pro monocoque carbon fork

A super lightweight all-carbon fork that delivers exceptional handling and comfort.

#### SRAM Red 10spd

SRAM's Red group continues to light the racing world on fire with its super light weight and incredible performance.

#### fi'zi:k Arione saddle w/ Kium rails

The Arione saddle is one of the most comfortable on the market and one the top riders in the world still rely on.

#### Ritchey WCS Carbon Evolution handlebar, WCS carbon seatpost & 4-Axis carbon Matrix stem

The best parts made by one of the most respected names in the component world.

#### Zipp 404 carbon clincher wheelset

When it comes to race wheels, the Zipp name is by far one of the most respected and desired.

Color: Ano White

Here's the bike that makes professional racers jealous! There's nothing about this bike that needs upgrading; it's ready for primetime straight out of the shop. All your friends will be wildly jealous, especially when all they ever see of the bike is the rear wheel as you speed away.

**Masi High Modulus full carbon-lugged frame**

The lightest Masi frame ever made with a monocoque front triangle bonded to a lugged rear end.

**Masi FC/Pro monocoque carbon fork**

A super lightweight all-carbon fork that delivers exceptional handling and comfort.

**Shimano 7900 Dura Ace 10spd**

Dura Ace remains the benchmark for reliability in shifting and braking performance.

**fi'zi:k Arione saddle w/ K:iium rails**

The Arione saddle is one of the most comfortable on the market and one the top riders in the world still rely on.

**Ritchey WCS carbon handlebar, carbon seatpost & 4-Axis alloy stem**

The WCS parts are light, stiff and supremely reliable.

Color: Ultra Black

Using the newest Ultegra group and a variety of other pro-level parts like the Ritchey Pro cockpit and Prologo saddle, the 3VC Ultegra is not shy about stomping the competition. Racers or enthusiasts seeking a bike without compromise (or fear) can stop searching and start riding.

#### Masi High Modulus full carbon lugged frame

The lightest Masi frame ever made with a monocoque front triangle bonded to a lugged rear end.

#### Masi FC/Pro monocoque carbon fork

A super lightweight all-carbon fork that delivers exceptional handling and comfort.

#### New Shimano Ultegra 6700 10spd drivetrain

Updated to match the pro level Dura Ace group with all the same improvements in ergonomics, weight and shifting/ braking.

#### Ritchey Pro Wet Black handlebar, stem and seatpost

Ritchey's Pro series is elite level and the Wet Black finish is similarly top notch.

#### Custom Prologo Scratch Pro saddle

Prologo has rapidly become a favorite saddle among the top European pros—you'll understand why after the first mile.

#### New Shimano Ultegra 6700 wheelset

Shimano's latest version of the Ultegra wheelset is compatible with both traditional clinchers and new tubeless clinchers and is very race worthy.

Color: Ruby Red

The 3VC 105 uses the exact same frame as the Team Issue bike and is just as ready for the fast-paced action of racing or those weekend rides with the group. A new smaller 48cm size is now offered as well so that women and smaller riders can both join in the fun. The parts selection is perfect for new enthusiast riders who are ready for an upgrade from their current bike or aspiring racers looking for a bike they can upgrade as they progress as well.

#### **Masi High Modulus full carbon-lugged frame**

The lightest Masi frame ever made with a monocoque front triangle bonded to a lugged rear end. (New 48cm size available.)

#### **Masi Elite/RS carbon integrated fork w/ 7075 alloy steerer**

Lightweight carbon legs bonded to an aluminum steerer tube for comfort and reliability.

#### **Shimano 105 shifters and front and rear derailleurs**

The 105 shifting system is the performance leader in entry level race parts.

#### **Truvativ Elita C2.2 crankset w/ compact chainrings & integrated bottom bracket**

The compact gearing is perfect for all those long miles going up and down the rolling roads of life. With the external, integrated bottom bracket you get increased stiffness for improved shifting and power.

#### **Shimano R500-A wheelset w/ aero spokes**

Built with aero rims and bladed spokes to go really fast while remaining worry-free for countless miles.

## Framesets

All Masi framesets are tested in the heat of competition or through countless miles of pounding the pedals. It doesn't matter if it's on the local velodrome, the steepest mountain, the ugliest cross course or the chaotic city streets- we've ridden it all so you can rest assured that the frame you're considering is more than ready to join you on your adventures. We design our frames to be lifelong partners who help you get more out of your legs and your desire to ride. Like you, we live to ride and we know how good it feels to put your own touch into creating that ultimate ride. All Masi framesets are ready to get you to the next level in your cycling evolution.

Color: Metallic Orange

**G**o fast, turn left, don't stop pedaling- words to live by when you're on the steep and fast banks of the velodrome. The Coltello is designed specifically to perform at the highest levels of the sport; aero enough to be dangerous and stiff enough to be lethal in the sprints. The streets are not safe from the awesome power of the Coltello either and many can be seen slicing their way through the chaos of the urban track.

**Masi 7005 T6 SL double butted aero tubed track frame w/ aero seat tube, rear wheel cutout & track dropouts w/ stainless steel inserts**

An aluminum frame that is designed to go fast on the steepest banked tracks or furious city streets.

**Masi Elite/RS Aero carbon integrated fork w/ 7075 alloy steerer & custom 30mm track offset**

Lightweight carbon legs and a custom offset for supreme handling at high speed.

**Ritchey Pro Zero Drop-in headset**

The Ritchey headset ensures that your steering will remain smooth and perfect forever.

Color: Metallic Red

With the exact same geometry as the Coltello, the Speciale Sprint is a steel-loving track fiend's dream come true. The Reynolds 631 tubing provides an incredibly smooth ride without sacrificing too much stiffness for sprinting to victory or through the tight confines of city traffic.

**Reynolds 631 double butted steel tubing w/ Masi track dropouts**

The exact same race geometry as the Coltello but made with the exceptional steel tubing from Reynolds. True track dropouts for easy wheel or gear size changes.

**Ritchey V2 headset**

Ritchey headsets are among the most reliable money can buy at any price.

**Masi lugged chromoly steel fork**

Made with the same custom 30mm offset as the Coltello fork, but finely crafted from lugged steel.

Color: SG Ano White

The same frame and fork as used on our complete CXR bike, so it's a true cross demon. The ultra light aluminum tubing and super responsive carbon fork make for a fantastic platform to bolt your favorite parts to. Race season isn't long enough, so the CXR is a great winter training bike or a trail hound.

#### Masi 7005 T6 SLX double butted cyclocross frame

We use our lightest aluminum tubeset to create an excellent climbing and sprinting 'cross machine.

#### Masi Elite/RS Cross carbon integrated fork w/ 7075 alloy steerer & canti bosses

The lightweight carbon legs and aluminum steerer provide precise steering and eat up all the bumps of the trail.

#### Ritchey Pro Zero Drop-in headset

The Ritchey headset ensures that your steering will remain smooth and perfect forever.

Color: Rosso Red

Here's the same frame and fork used on the 3VC Team Issue complete bike, but stripped down for you to build up any way you see fit! With all the great component options on the market now, it's never been easier to build a fantastic race bike. Here's your chance to see if you can build up the next lighter-than-air super bike.

**Masi High Modulus full carbon-lugged frame**

The lightest Masi frame ever made with a monocoque front triangle bonded to a lugged rear end.

**Masi FC/Pro monocoque carbon fork**

A super lightweight all-carbon fork that delivers exceptional handling and comfort.

**Ritchey Pro Zero Drop-in headset**

The Ritchey headset ensures that your steering will remain smooth and perfect forever.

Color: Nekkid

**L**ugs- they pretty much stop your heart sometimes and always stop your eyes. The Fixed Ultimate frameset is laced with sweet lugs and is ready for your loving touch to turn it into your own interpretation of perfection. With two color options, you can be assured of finding "the one" to tame the savage beast inside you that has been yearning for more than the ordinary.

Also available in Maroon

#### Fully lugged Masi double butted 4130 chromoly steel w/ Masi track dropouts

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value. Nothing defines grace and elegance on a bicycle quite like lugs-nothing. True track dropouts for easy wheel or gear size changes.

#### Masi lugged chromoly steel fork

The flat crown and lugged dropouts combined with the chromoly steel fork blades creates an incredible ride that feels good all day long.

#### Ritchey V2 headset

Ritchey headsets are among the most reliable money can buy at any price.

Color: Blue

A classic lugged road frame is a thing of beauty and the Speciale Premio frameset is the ideal platform for you to create your own interpretation of the perfect road bike. The warm feel of steel and the timeless beauty of lugs is a potent combination and once you've finished your masterpiece you'll have something to ride and cherish for years to come.

**Fully lugged Masi double butted 4130 chromoly steel w/ compact socket dropouts**

Chromoly produces a warm and comfortable ride that can not be reproduced with any other material for the same cost value. Nothing defines grace and elegance on a bicycle quite like lugs... nothing. The modern compact dropouts help create a stiffer rear end for better power transfer.

**Masi lugged chromoly steel fork**

The flat crown and lugged dropouts combined with the chromoly steel fork blades creates an incredible ride that feels good all day long.

**Ritchey V2 headset**

Ritchey headsets are among the most reliable money can buy at any price.
